

WOMT Decision 5/31/2007

USBR will cycle the opening and closing of the Delta Cross Channel (usually opening on weekends and closing on weekdays) and continue to monitor the situation and revisit DCC operations weekly, based on 1) advice from the DSWG that closing the DCC would likely have only a minimal benefit to delta smelt, 2) adverse impacts to emigrating Sacramento Basin salmonids, and 3) potential violation of water quality standards/objectives.
